DATA SECURITY

At Toustone, security and reliability are paramount.

As a trusted partner, Toustone understands the value and vulnerability of your data. We are General Data Protection Regulation (GDPR) compliant, ensuring privacy standards are at and above Australian requirements and ISO27001 certified.

We've implemented ICT security controls to protect our data from unauthorised use, modification, loss and release. Our suite of policies outline the rules, guidelines, and procedures we adhere to in protecting organisations' ICT systems and client data from security threats.

We treat your data like our own.

- ✓ Complete end-to-end platform encryption
- ✓ GDPR Compliant
- ✓ ISO27001 Certified
- ✓ ICT Security controls

Your data needs can be sorted and fully supported.

Our Security Measures

High Availability   High Availability in Toustone Cloud is delivered via replicating key infrastructure components across different availability zones. Availability zones are discrete physical data centres at different locations.

- The platform is completely encrypted from one end to the other.
- Connections into the environment are encrypted with 128-bit TLS 1.2 connections.
- All data is encrypted at rest (AES 256)

Security   Backend platform configuration, Yellowfin backup files and Yellowfin configuration data is encrypted both in transit and at rest. AWS security components are used to ensure the platform as a whole and individual environments are secure and used to monitor for anomalous activity. Tools we use to provide security within our AWS based platform:

- Identity & Access Management
- Cognito
- GuardDuty
- Certificate Manager
- Key Management Service
- Trusted Advisor
- Cloud Trail

Who We Are

Toustone is an Australian advanced analytics and Decision Intelligence company driven by confident and seasoned data experts. Operating since 2014, we help Australian leaders across industry gain clarity on the current and future state of their business, so they can make confident and smart decisions to find their edge. Toustone also supports businesses with sustainability reporting, whilst our predictive analytics tools help address staff retention, and membership growth goals.
